Front-End Developer | React.js

9562080435 ◇ kbarjun12@gmail.com ◇ Kottayam , Kerala , 686513 , India ◇ [LinkedIn](#) ◇ [Portfolio](#)

OBJECTIVE

Aspiring Front-End Developer with a strong foundation in HTML, CSS, JavaScript, and React.js. Passionate about building responsive, user-friendly web interfaces and enhancing performance. Developed multiple personal and collaborative projects using modern front-end tools. Eager to contribute to innovative projects, grow within a collaborative team, and continuously learn modern front-end technologies to deliver impactful digital experiences.

INTERNSHIP EXPERIENCE

Mean Stack Developer

Feb '24 — Aug '24

Luminar Technolab

Ernakulam, India

- Built responsive front-end interfaces using React.js with reusable components and React Router for dynamic routing.
- Applied best practices in UI/UX, debugging, and performance optimization to improve application usability.
- Integrated RESTful APIs with front-end components and handled asynchronous data fetching using tools like Axios and Fetch.
- Designed and managed MongoDB schemas and implemented CRUD operations via Mongoose.
- Collaborated with team members using Git and GitHub for version control and participated in code reviews.

Salesforce Developer

Sep '24 — Mar '25

Auxspire Technologies

Thiruvalla, India (Remote)

- Developed and customized Salesforce applications using Apex and Lightning Components.
- Created and optimized SOQL queries to improve data retrieval efficiency.
- Worked on declarative tools like Workflows, and Validation Rules.
- 50,000+ Trailhead Points and 45 Badges.

EDUCATION

B.Com in Finance and Taxation, St. Antony's College , Peruvanthanam

2020 — 2023

Idukki, India

PROJECTS

Social Media (Full-Stack) [Link](#)

• Tech Stack

Frontend - React.js , React Router, React Query, Zustand, Tailwind CSS, Axios.

Backend - Node.js, Express.js, MongoDB, Mongoose, JWT, bcrypt.

- Built a full-stack social media-style app for creating and sharing image-based posts (“pins”). Used **React** with **Zustand** for state management and **React Query** for data handling. Implemented rich text editing, board creation, image uploads (Cloudinary), and user authentication (JWT). Backend built with **Express** and **MongoDB**, following RESTful API design.

Virtual Reality [Link](#)

- **Tech Stack:** React.js, TailwindCSS, HTML, CSS

- VirtualR is a responsive frontend web app for a VR development toolkit, featuring an interactive UI that showcases tools like drag-and-drop, real-time preview, and cross-platform compatibility.

Weather App [Link](#)

- **Tech Stack:** HTML, CSS, JavaScript

Shoe Cart [Link](#)

- **Tech Stack:** React.js, JavaScript, TailwindCSS , HTML, CSS

- Shoe Cart App built with React.js and JavaScript!

From sleek UI to functional filters and category-based search, this project was all about enhancing the e-commerce experience.

TECHNICAL SKILLS

Front-End Technologies HTML5, CSS, JavaScript, Browser Developer Tools

JavaScript Frameworks & Libraries ReactJS, React Router, React Query, Fetch API

Styling & UI Libraries Tailwind CSS, Bootstrap / Material-UI, SCSS, Styled Components

State & Data Management React State Hooks, Redux Toolkit, React Query

API Integration RESTful APIs, JSON data handling

Deployment & Hosting Vercel, Render, GitHub Pages, Postman, Insomnia

Frameworks & Libraries Node.js, Express.js, Mongoose, JWT, dotenv, MongoDB, MongoDB Atlas
